

April 30<sup>th</sup> 2008

**To Whom It May Concern:**

This letter is my personal recommendation for Steven Perino. I have purchased estimating services from Steven on a contract basis and have found his work to be exact and timely. His demeanor is professional and courteous while tackling all assignments with dedication and a smile.

Besides being a pleasure to work with, Steven is a take-charge person who is able to present creative ideas and communicate the benefits. He has successfully developed several large scale estimates for the University of Texas extension campuses as well as private land developers. All of his estimates have resulted in the generation of valuable data for our end users and owners.

Steven has been helpful in other areas of the company as well allowing us to utilize his skill as staff extension in times of heavy demand on our program and project management division.

I highly recommend Steven for employment. He is a team player and would make a great asset to any organization.

Sincerely,  
Jacque Judy
